

**I P DIGITAL**  
**(Intellectual Property in the Global Digital Environment)**  
**Law 178**  
**Syllabus**

**Prof. Doris Long**

**Fall 2008**

---

**Required Texts:**

Long & D'Amato, *2002 Documents Supplement to A Coursebook in International Intellectual Property* (West)

Long, *IP Digital: Protection of Intellectual Property in the Global Digital Age* (Available on the Legal Ease Site Associated with the Course)

**Recommended Supplemental Texts:**

Larry Lessig, *Code and Other Laws of Cyberspace* (Basic Books)(paperback)(if you haven't read it yet, the foundation book for the debates over the structure of internet regulation)

Tom Standage, *The Victorian Internet* (Berkley)(paperback)(great comparison to the issues and challenges today raised by Internet communication)

Mark Partridge, *Guiding Rights: Trademarks, Copyright and the Internet* (a clear and concise discussion of some of the most pressing issues facing intellectual property use on the Internet)

**Assignments:**

Assignments for this course are set forth below. All of the treaty and US statutory provisions, are found in the 2002 Documents Supplement. All of the remaining materials are contained in the IP Digital text by Long which is posted on the Legal Ease site under the heading "handouts." All class dates are approximate dates when the material will be covered. I reserve the right to assign additional materials and will announce any such changes during class and by email.

**Attendance and Participation in Class:**

Regular class attendance is required and is essential to a coherent understanding of the course. Absences in excess of 25% of scheduled class sessions will result in dismissal from the course with a grade of withdrawn/fail. You are responsible for assuring that you sign the attendance sheet each day you attend class.

The class will rely strongly on student discussion of the topics covered. I will call on students in a random order to discuss the materials and will also ask for volunteers. Meaningful participation requires that students be fully prepared for class. I reserve the right to raise or lower grades one half a grade based on class participation.

### Grade

Your grade for the class will be based 50% on a required class presentation (of approximately 15 minutes) of one of the subjects that we will be covering this semester and 50% on a short final examination. For the class presentation, you must go beyond the materials contained on the course outline and syllabus to provide a perspective on the topic to be covered. You must also provide me with a brief written outline or other written format of your presentation prior to the date of your presentation. If you wish the class to read additional materials, for your presentation, please provide me with a copy in advance of the assignment.

For those students who are taking this course for LLM or MS credit, in addition to the class presentation and final examination, you are also required to submit a short paper at the end of the semester on the topic you have presented in class. The paper must be at least 10 typewritten double spaced pages, and must contain original research regarding the topic in question.

### Class

### Assignment

#### 1                    **CYBERSPACE AND DIGITAL MEDIA: INTRODUCTORY ISSUES**

Long, Introduction

#### **The "Borderless" World of the Internet**

TRIPS, Article 61

**Future Trends and Exam Review**

## **Suggested Outside Readings**

There are numerous books and articles that deal with the constantly changing nature of the cyberspace and technology and their changing relationship to intellectual property laws. Among the more intriguing outside sources (which have been placed on reserve in the library) are the following:

Lessig, Free Culture

Lessig, Code and Other Laws of Cyberspace

Lessig, The Future of Ideas

Standage, The Victorian Internet

Wayne, Free For All: How Linux and the Free Software Movement Undercut the High Tech Titans

Menn, All the Rave: The Rise and Fall of Shawn Fanning's Napster

Litman, Digital Copyright

Weber, The Success of Open Source

## **A Useful (Free) Primer on IP Issues in E-Commerce is:**

E-Commerce Primer, <http://ecommerce.wipo.int>. WIPO Doc No. WIPO/OLOA/EC/PRIMER

## **Office Hours**

I am located in Room 424. I have an open door policy. If I am in, my door is usually open. In addition, my office hours are as follows:

Monday 5:00 – 6:00

Tuesday 5:00 – 6:00

and by appointment.

## **Telephone**

I can be reached (312) 360- 2651.

My email address is [7long@jmls.edu](mailto:7long@jmls.edu). To avoid deletion of any message as unintended spam please be certain to include a subject line.

## **Final Thoughts**

Technology and law are always in a race. I look forward to exploring with you the hits, misses and future problems as the law created to protect intellectual productions collides with modern technology.
